Life Programme under Grant Agreement
N° LIFE 17 ENV/IT/000212 I-SharE LIFE

#### **Corporate and Easy Station Model Service:** Vehicles shared between companies and commuters

Busto Arsizio is an industrial area, located close to Malpensa international airport, with many commuters from/to the city of Milan.

The model involves the use of the electric vehicle in car-sharing by commuters (for the journey home - railway station and back) and by companies near the station. In this model the costs of the service are shared between the company and the commuters.

The municipal environmental services company (AGESP) shares 8 electric vehicles with commuters during the testing phase. After the co-design activities the model had been changed and improved. The e-cars are now used by the company employees during office hours and for selected ones also after work and in the weekend.

Both Busto Arsizio Railway Station and Castellanza railway station have been infrastructured with EV Charging stations. Other Charging stations are located in strategic areas of Busto Arsizio Municipality.

This models showed many critical issues from the testing phase since the tourist involvement had been difficult due to short stay.

Nowadays, for this reason the model does not seem economically sustainable. Until now E-VAi activated 10 e-cars based on a pay per use service (Regional service) located in the parking slots at the railway station of:

- Como Borghi
- Como Camerlata
- Como Nord.
